## **Church News**

Thank you to the Outreach Team for the excellent night on Sunday. Well done. A lot went into the evening and thanks to all who participated.

Thanks to all who were involved in any way to make the "One Night in Bethlehem" event a success. It was great to see so many get involved and pull together to share the important story of Christmas.

The **Search Team** would like to invite members to attend a round-table session to discuss important characteristics and strengths of our next pastor. We will compile feedback to use in our search. Please see the handout in your mailbox for additional details. The Round-Table Sessions will be held in the church basement on:

- Sunday, January 5, at 10:45 a.m.
- Monday, January 6, from 5:00–6:30 p.m.

Please contact a Search Team member with any additional questions.

**PRAYER:** We have prayer groups praying through the transition process at First CRC and we want to invite the entire church specifically into prayer with us. We ask that you pray that we will all be led by the Holy Spirit as we seek to discern God's will. We also invite all to attend the Tuesday AM prayer time at 8:00 at the church or the Sunday morning prayer time in the church basement at 8:45. Thank you for your prayers.

There will be no Sunday School today or next week Sunday.

# CREATION MOMENTS

*Proclaiming Evidence for Truth*

## THIS WEEK'S CREATION MOMENT

### Fabulous Ancient Science

*And as we have borne the image of the earthy, we shall also bear the image of the heavenly. (1 Corinthians 15:49)*

For centuries the Chinese were the world's greatest scientists and engineers. Many people know that the Chinese invented the compass and gunpowder, but these are only the beginning. Over 1,000 years ago, Chinese astronomer Su Song built the first planetarium. He even tilted it at a precise 23.5° to match the Earth's tilt. More than 2,000 years ago another Chinese astronomer noted the moons of Jupiter—long before Galileo "discovered" them.

Almost 1,000 years ago, the Chinese used gunpowder to make over 30 types of fire arrows, including one that was a two-stage rocket. They were great shipbuilders as well. One of the most famous examples is a nine-masted, 300-foot ship with watertight bulkheads. The Chinese-invented odometer featured reduction gears and carved figures that beat a drum every time a distance of about one-fifth of a mile was traveled.

The world's first known seismometer—a device that registers earthquakes—was built in 132 AD. A 16th-century palace roof was designed with a series of interlocking joints that were layered to provide flexibility in case of an earthquake.

As our knowledge of humanity reaches into history and grows, the picture we see is not that of a primitive becoming more like a modern human. Rather, we see humans—ever curious and inventive—that are very different from the animal world. Truly we have come from the hand of God Himself.
