***Affirmation of our Faith:** HC Q&A 4 & 5

4 Q. What does God's law require of us?

A. **Christ teaches us this in summary in Matthew 22—Love the Lord your God with all your heart and with all your soul and with all your mind and with all your strength. This is the first and greatest commandment.**

And the second is like it: Love your neighbor as yourself.

All the Law and the Prophets hang on these two commandments.

5 Q. Can you live up to all this perfectly?

A. **No. I have a natural tendency to hate God and my neighbor**

Benediction

***Closing Song:** And Can it Be? – R347 vs 4

***Postlude**

Worship Notes

This morning we celebrate together as **Mackenzie Mulder professes her faith** and as **Silas Mulder (son of Noah and Mackenzie) receives the mark of baptism.**

Next Sunday we look at the seventh commandment. Adultery involves not just a physical act but also the way that we look at or think about others. We are sexual beings but that certainly is not the best way to see each other. When we place value on someone else we will not treat them with lust. Sexuality is a gift from God but like everything else it has its place and boundaries.

Verse of the Week: "You shall not murder." Deuteronomy 5:17

This week be in prayer for:

- Those who face racism, sexism, abuse, or are mistreated in another way
- Our newly elected officials
- Our denomination

Give thanks to God for:

- Being holy
- Dreams
- The voice of the church

Last Week's Offerings

Local Budget	\$4,320.00
Classical Ministry	\$ 874.25
Neen Benevolent Needs	\$ 895.00

If you are making a donation to the maintenance and remodeling project, please label the envelope or check Capital Improvements. This will help the deacons. Thank you!

Church News

The Council is looking to see if someone is interested in being in charge of the **Church Library**. Please see an Elder if you are interested.

Christian Fellowship is not having a regular meeting in February, but is planning to visit with Wilma on February 12.

Mens' Wednesday Night Bible Study: This group will be meeting at the home of Steve Smits on the first and third Wednesday nights of each month. Our next meeting will be February 1 at 7 PM. There is still plenty of room for you to join this group.

Our "NEW" Facebook site:

Due to numerous requests, we will be expanding our church facebook page over the next several weeks. We hope to use our public page as a communication tool for our members and our community. We also plan to set up a secure area where members can share and discuss online articles, videos, messages, etc. We are pleased that Kim Greenfield will be setting up this secure area and will oversee the facebook page for our church. Please "Like Us" at <https://www.facebook.com/1stcrwaupun>. Also, please share our site with your friends.

The Cadets are selling Eatons pizza coupons as a fundraiser for our group. Pizzas are \$7.60 each or 5 for \$36. You can buy the coupons from any Cadet or contact Ben Homan. Thank you for your support!

The Crusader Basketball program is pleased to announce an outreach fundraising dinner to help support the medical needs of the Mindt family. Steve & Kristy's son, Casey, is a freshman on the blue & gold squad. They are active parts of the CWC community in numerous ways, and Steve is currently the vice-president of our Parents in Action group.

Steve had a congenital form of lymphedema known as Milroy's. This leads to reduced circulation, swelling, and limited functioning of his vascular system. Daily physical therapy treatments, wrapping of his extremities, and ongoing challenges to cellulitis are a part of Steve's routine. There is no cure for Milroy's, so these difficulties are not going to go away.

As a Crusader Community, please join us on February 10th for a Pasta Meal, with serving from 4:30-6:30 PM on the same night as CWC hosts Horicon in a 7PM game. If you want to help out, please contact Tabbie Vander Werff (295.7408). Let's make a difference!!!

Men's Noon Bible Study, will begin on **Wednesday, February 8 at 11:45 AM** at Mike Vander Berg's home. We are hoping to do a study on "Christianity, Cults & Religions". If you are interested in joining this study, talk to Mike Vander Berg.

First Place 4 Health is starting a new season. A New You is possible with the support of First Place 4 Health, a Christ-centered weight loss group which focuses on emotional, mental, physical and spiritual wellness. **Classes will start on Monday evening, Jan. 30th at 6PM and Tuesday morning, Jan 31 at 9AM.** Please call Toni Hofman at 920-960-2748 for more information.

Awakening From Alzheimer's DVD will be shown on Tuesday, Jan. 24th at 6 p.m. in the Fellowship Hall at Pella Lutheran Church. This is a 12-week series that Carol Oppermann has purchased and is sharing with people who are interested in what can be done to prevent or reverse Alzheimer's Disease. Many of those things can be done right in your own kitchen. After the introductory DVD on the 24th, the 2nd session will be held on Feb. 7th and then every week until April 18th.

CREATION MOMENTS
Proclaiming Evidence for Truth
THIS WEEK'S CREATION MOMENT
Glow, Little Cockroach

*When his candle shined upon my head, and
when by his light I walked through darkness; –
Job 29:3*

As Creation Moments has reported in the past, evolutionists were dead wrong when they told us that viceroy butterflies evolved to look like toxic monarch butterflies to trick predators into thinking that they, too, are toxic. As it turned out, viceroy

butterflies really *are* toxic – more toxic than monarchs.

Despite the facts, the myth of viceroy butterfly evolution was taught to millions of unsuspecting children. And it worked so well, evolutionists are at it again. According to National Geographic News, the rare *L. luckae* cockroach evolved the ability to glow in the dark "to mimic the bioluminescent click beetle, whose glow warns predators of its toxicity."

The only evidence they've got for this is that the wavelengths of light released from both bugs are identical. That's it? That's the best evidence they've got? The *National Geographic News* article admits that the cockroach's bioluminescence also gives it a disadvantage, evolutionary speaking, because it makes it easier for predators to spot them. But evolutionary biologist Olivia Judson already has an answer for that: "Bioluminescence is like any evolutionary tool – there is no single use for it. It can attract, deter, or even be used as an invisibility cloak of sorts." It's been said that when all you have is a hammer, everything looks like a nail. In the same way, when all you have is a godless natural world, everything – including a bioluminescent cockroach – looks like it can be used to trick people into believing that evolution caused it.
