- Janet Ver Hage as she continues cancer treatments.
- Margaret Miedema as she continues to seek answers for the weakness and pain in her legs.

Honor one another above yourselves."

In the midst of cold weather and snowstorms, the 3K – 5<sup>th</sup> grade students of CWC are busily preparing their **annual spring musical**. This year we will be performing "Soul on Fire" by Celeste Clydesdale. We are learning about being on fire for the Lord inside each of us, and how we can show that to others around us. We hope you will be able to join us on **Friday March 15, 2019**. There will be two performances. The first performance begins at 9:00 am. Our evening performance will begin at 6:30 pm. We will once again be serving the evening meal at **St. Ben's on Friday, March 22**. Sign-up sheets are available in the basement. Please prayerfully consider where you can help.

**ANNUAL FUN NIGHT!** – After much success last year, the Youth Groups of Bethel CRC and 1<sup>st</sup> CRC will be holding a FUN NIGHT VOLLEYBALL TOURNAMENT and baked goods sale on Saturday, March 9<sup>th</sup>, at CWC. A

# CREATION MOMENTS

Proclaiming Evidence for Truth  
THIS WEEK'S CREATION MOMENT

## Giant Jupiter

The heavens declare the glory of God; and the firmament sheweth his handywork. – Psalm 19:1

When you consider statistics to do with the planet Jupiter, our minds begin to boggle!

As with all the planets, Jupiter does not generate its own light. Its light is reflected from the Sun, which, were you on the surface of Jupiter, would be over 480 million miles away. Of course, you would not be standing on the surface of Jupiter for a number of reasons. First of all, it is comprised of gas, so does not have a solid surface for you to stand on. In addition, its surface gravity is 2½ times that on the surface of the Earth. This means that you would be so heavy, your muscles would probably not be strong enough for you to move them easily.

When seen through a powerful telescope, we can see bands of gas clouds. One very unusual cloud – the Great Red Spot – appears to be an anticyclone storm and has been consistently observed for nearly 190 years – indeed, some have suggested that observations 350 years ago may be of the same storm. And to think that the author used to complain about storms in Florida!

We do not know why God made such magnificent objects as this beautiful planet. But perhaps part of the reason was revealed in 1994 when comet Shoemaker-Levy was observed crashing into its surface. Perhaps, since the fall, Jupiter has been a sort of cosmic vacuum cleaner, protecting the Earth from large impacts.
