**Congratulations to Jacob & Samantha (Ogurchak) Mulder** who were united in Marriage on June 2nd in Athens Ohio. Our many prayers as they start their life together, may they keep Christ at the center of their home and marriage.

**A huge Thank You** to all who remembered me with cards, visits, delicious food and especially prayers during my cancer surgery. Praise the Lord with us that I only need Hormone Therapy (a pill a day for 5 years). I will begin

this after cataract surgery the first of which I plan to have on Tuesday, June 5. Continue those prayers and THANKS again. **Arlene & John DeJager**

**Sunday School is in need of a teacher** for the 4/5<sup>th</sup> grade class for this fall. Please contact Brian O'Donovan if you are willing to help.

- Ben & Alyssa Homan and Eden as she recovers from surgery.
- Laura Ten Pass as she goes through treatments for the spots that were found.
- Leanne Johnson as she waits for results from her treatments.
- Bob Decker who is experiencing health issues due to bleeding on the liver. Pray that he can get a liver transplant.
- Morris & Bea as Morris goes through chemo treatments. May these treatments shrink or remove the cancer. We do give thanks that his brain scans returned normal.
- Nina Te Beest as she recovers from stent placement and awaits surgery to replace a valve.
- Al, LeAnne & Cassie as they mourn the loss of Al's father.

It can be easy to forget about those that we don't see every week so we are including a list of shut-ins within our congregation. We hope that you will take some time to visit, send cards, and pray for these members of our family. As Romans 12:10 says, "Be devoted to one another in brotherly love. # CREATION MOMENTS

Proclaiming Evidence for Truth  
THIS WEEK'S CREATION MOMENT

## The Great Pretender

It is better to trust in the LORD than to put confidence in man. It is better to trust in the LORD than to put confidence in princes. – Psalm 118:8-9

As we have reported on previous Creation Moments broadcasts, some snakes hide when they are threatened. Others play dead, hoping predators will lose interest. Some snakes rear up or make hissing and rattling sounds to scare off would-be predators. But have you ever heard of a harmless caterpillar that can make itself look and act just like a deadly snake?

If you live in Costa Rica, Belize, Mexico or Guatemala, one of the most unusual creatures you will ever come across is the *Hemeroplanes triptolemus* moth while it's a caterpillar. Though it looks pretty ordinary, when it is threatened by a predator, it expands and raises its body while twisting it upside-down, revealing what looks like a fearsome snake's head! Not only does the caterpillar look like a snake, it even acts like one, harmlessly striking at predators as if it could kill. Even its shiny eye spots are menacing!

Evolutionists, of course, will tell you that these unusual markings and snake-like behavior are the result of millions of years of chance mutations. But to anyone who hasn't been fooled by such explanations, it is obvious that this caterpillar was designed.

That's why it's so important that we teach our young people to think for themselves and not blindly accept what evolutionists are telling them. Trickery and deception are common throughout the animal kingdom. But the most deceptive creature of all is man.
