## 7:00 PM Combined Worship Service @ Bethel CRC

### Worship Notes

**Tonight** we join with Bethel as Pastor Craig is on retreat. Their service begins at 7:00pm.

**Next Sunday** we continue our study of Matthew 5 as we see the call to be salt and light in this world. What does that mean and what happens when we fail to be salty and bright?

**Verses of the Week:** Blessed are you when people insult you, persecute you and falsely say all kinds of evil against you because of me. Rejoice and be glad, because great is your reward in heaven, for in the same way they persecuted the prophets who were before you." Matthew 5:11-12

#### **This week be in prayer for:**

- All those experiencing natural disasters
- Hurricane Harvey in Texas and Louisiana
- Fires in California
- Hurricane Irma in the Caribbean, D.R., Haiti, Florida
- Mudslides in Sierra Leone, India, Bangladesh, and Nepal
- Hurricane Katia in Mexico

# CREATION MOMENTS

Proclaiming Evidence for Truth  
THIS WEEK'S CREATION MOMENT

## **Eyewitness to a Volcano's Birth**

The mountains melted from before the LORD, even that Sinai from before the LORD God of Israel. – Judges 5:5

How long does it take for a volcano to form? Scientists who reject the flood of Noah's time insist that it takes many thousands or millions of years. And yet, we know from eyewitness testimony that at least one volcano – Mount Paricutin in Mexico – grew to over 300 feet in height within a week of its birth.

The birth of Mount Paricutin took place in 1943, when a Mexican farmer, Dionisio Pulido, along with his son and wife, were working in a field. He was frightened when he saw a fissure open in the ground and the surrounding soil starting to bulge upwards. Soon the air was filled with dark smoke and gas smelling like rotten eggs.

Before the volcano became extinct nine years later, it had reached a height of 1,390 feet – tall enough to be seen from miles away. Since 1952, the volcano has been attracting tourists and climbers from all over the world. Now, if you were to ask tourists who hadn't listened to today's program how long the volcano has been there, they would say thousands or millions of years.

People generally say millions of years when asked about the age of the Grand Canyon. But they are basing their answers on assumptions made by geologists who don't take a worldwide flood into account. Far better than assumptions is the geological history of the world we find in the Bible.
